Studying the Jewish Future
Calvin Goldscheider
This book explores the power of Jewish culture and assesses the perceived threats to the coherence and size of Jewish communities in the United States, Europe, and Israel. In an unconventional and provocative argument, the author departs from the limiting vision of the demographic projections that have shaped predictions about the health and future of Jewish communities and asserts that “quality of Jewish life has become the key to the future of Jewish communities.”

Lifesaving Letters
A Child’s Flight from the Holocaust
Milena Roth
Foreword by David Patterson
In 1939, in the shadow of Hitler’s occupation of Czechoslovakia, six-year-old Milena Roth was sent away from her home and taken to safety by what came to be known as the “Kindertransport,” which rescued ten thousand Jewish children from the Holocaust and placed them with guardians in England. In this book, drawing on her mother’s poignant letters and on her own experiences, she recounts the challenges of integrating, in adulthood, the wounds and bereavements of childhood.
